A little bit of history :

APCADO was founded in 1974 by a group of owners of secondary residences in Ormont Dessus. They wanted more effectively to defend, protect and develop, in a harmonious manner, this region which they love. Since its creation APCADO has endeavoured to maintain a constructive dialogue with the local authorities and to participate actively in the life of the Commune. In 2009 the Association had approximately 300 members.

The objectives on the Association, as spelt out in its statutes are :

**Represent the interests of its members vis a vis the relevant authorities*

**Maintain a close contact with municipality, Diablerets-Tourisme and local companies and organisations.*

**Keep its members informed on all subjects of general interest*

**Facilitate and help develop contact between its members*

Annual activities :

- Winter event (luge, ski or curling) with a fondue*
- General assembly followed by a meal*
- Summer excursion for a day in the region*
